

SAFETY POLICY

SS fire Engineers is committed to a policy of effectively managing all aspects of health safety and welfare. This commitment extends to all sites, workplaces, employees and others affected by our operations.

SS fire Engineers recognizes that achieving high standards of health and safety is an integral part of business performance. Whilst all statutory the Company will take all reasonably practicable measures to ensure continual improvement in health and safety standards by setting appropriate objectives and targets that will be continually reviewed.

SS fire Engineers is responsible for the implementation of this Policy and for ensuring risks to the health and safety of all persons. Health and safety responsibilities have been defined for all SS fire Engineers

All employees and contractors are expected to co-operate with SS fire Engineers in the implementation of this Policy and the supporting Health, Safety and Environmental Management System and will ensure that their own work, so far as is reasonably practicable, is carried out with minimum risk to themselves or others.

The Health and Safety Policy is continually being monitored and developed and will be formally reviewed annually, though on exception amendments may be implemented at other times as required by legislative changes or work practices.
