

ABHISHEK HOSPITALITY SERVICES

EHS Practises

The organization diligently conducts inspections and maintenance for hand tools, machinery, and ensures the presence of a Licensed Electrical Supervisor/Electrician. However, it's important to note that these practices are not applicable to our specific business operations.

Additionally, our contract employees are well-informed about the Work Permit System and its adherence. Nevertheless, it's worth mentioning that this particular system does not apply to our business context.

Furthermore, the organization is fully aware of the Method Statement and the importance of adhering to it. Yet, it's important to clarify that the nature of our business doesn't require the use or implementation of Method Statements.
