COTMAC ELECTRONICS PRIVATE LIMITED

COTMAC OVER THE YEARS

Since its inception in 1992, Cotmac has consistently surpassed the industry's average growth in revenue and profit. Starting with a team of 12 employees selling a single product, the company now has over 600 employees offering an array of innovative solutions. Cotmac's key milestones include its association with Siemens as a System House, creation of multiple manufacturing facilities, implementing SAP to shore up its business support system, increasing the company's global footprint through offices across the world.

1992

Cotmac Electronics Pvt. Ltd. (CEPL) begins manufacturing UPS and system integration equipment.

1994

Sets up panel manufacturing factory at Bhosari, Pune.

2003

Sets up corporate office at Bhosari, Pune.

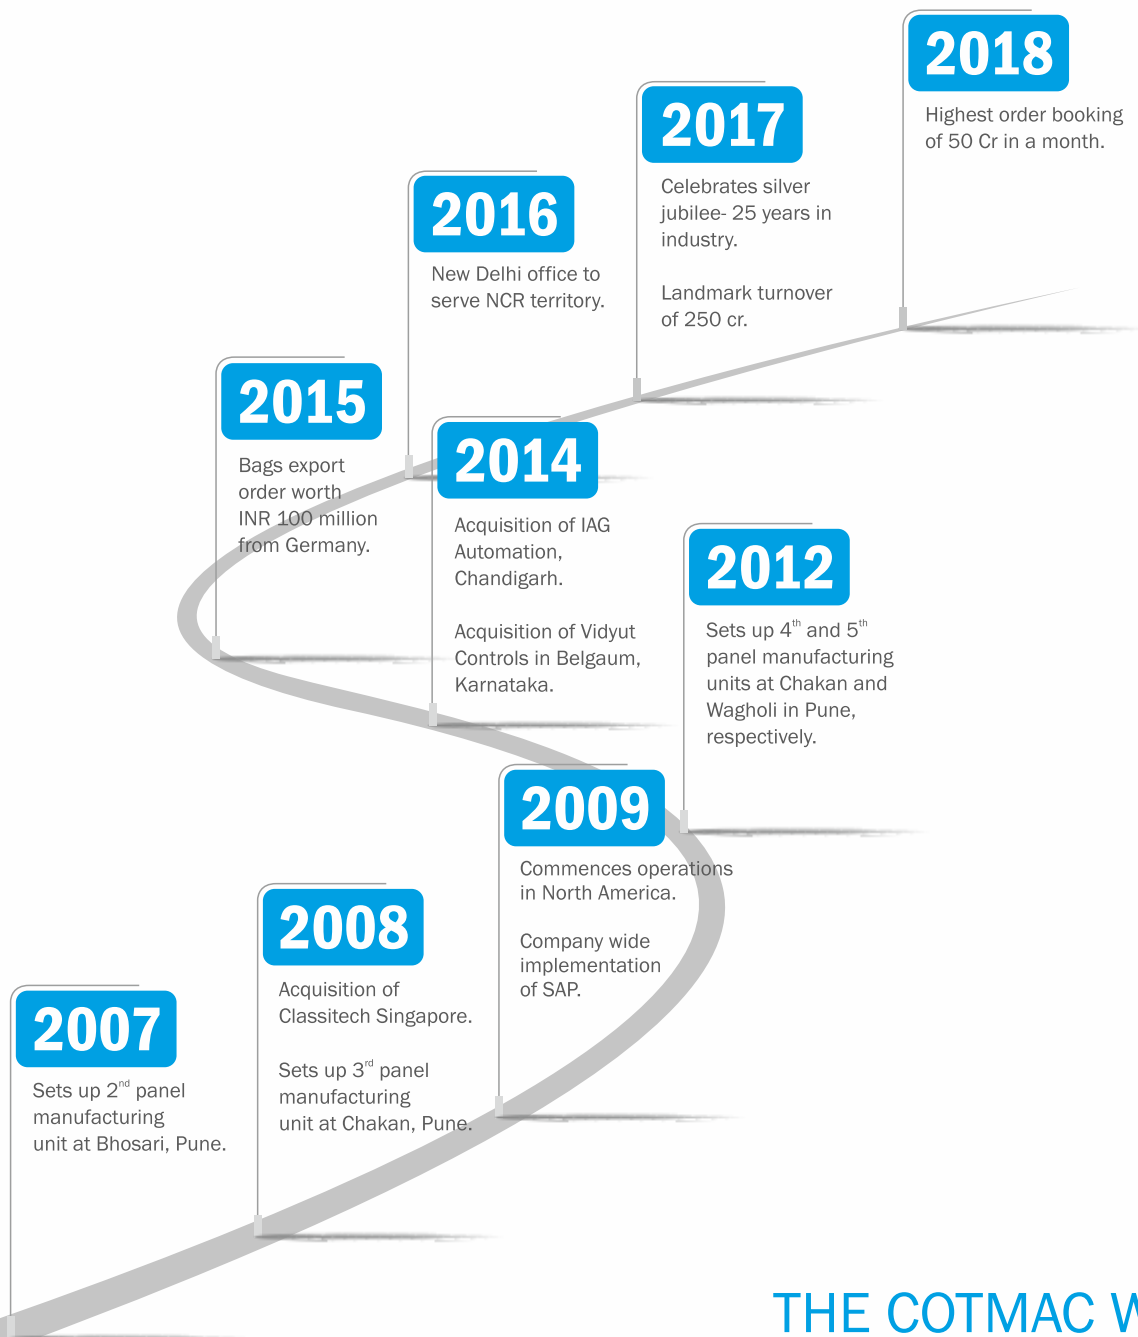

2004

Receives first export order from Denmark.

Establishes first overseas office in Dubai, UAE.

2006

Expands branch network in India.

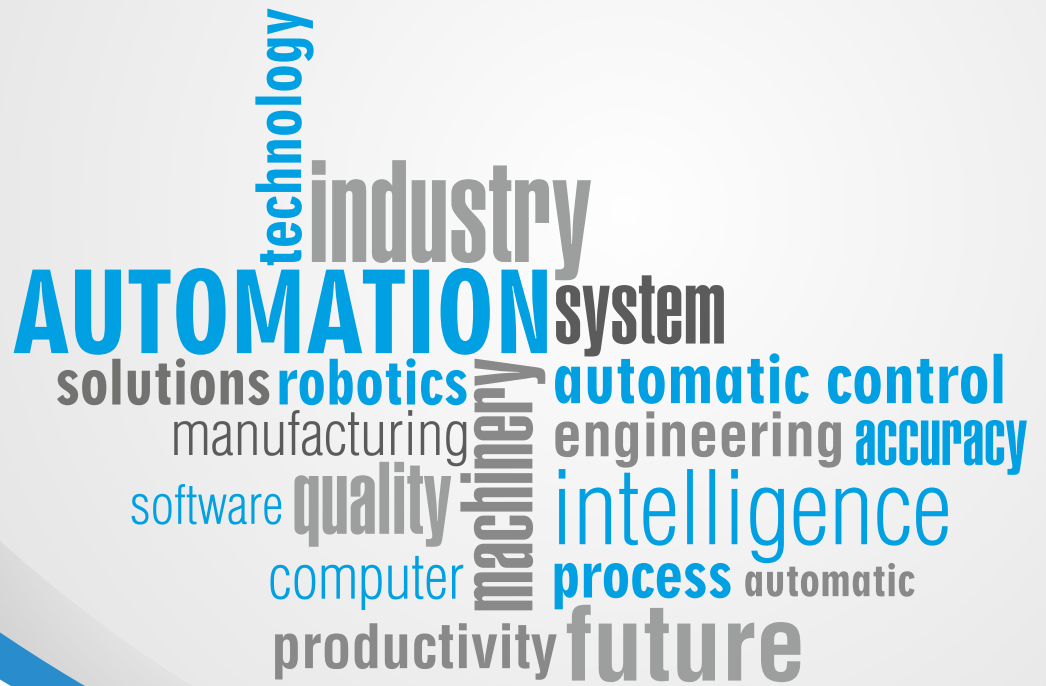

THE COTMAC WAY

Cotmac Electronics Pvt. Ltd., headquartered in Pune, India, is a respected name in industrial automation. The company provides customers a range of solutions and services using PLC, HMI, SCADA, DCS, Drives and CNC.

Cotmac Electronics is part of the illustrious Cotmac Group that was founded in 1896 as a cotton and machinery trading company. Backed by a 120 year old heritage built on a stable and strong foundation, Cotmac Electronics is today the flagship company of the group.

Since its inception in 1992, Cotmac Electronics has grown to employ over 600 skilled and qualified engineers. It has five state-of-the-art manufacturing plants and 13 branch offices in India, and three overseas branch offices in Dubai, Singapore and the United States.

The company provides innovative solutions for various factory and process automation applications in industries such as automotive, pharmaceutical, food and beverage, energy, material handling, metals and mining, paper and textile. As a system integrator that supports national and international businesses, Cotmac Electronics is the first choice in world class industrial automation solutions.

WHY AUTOMATION?

The demand for premium quality products and services from the industrial world can only be supplied by higher levels of productivity. As the fourth wave of industrialisation, popularly referred to as Industry 4.0, sweeps over manufacturing sector, customers are looking for solutions that integrate various systems, information technology, equipment, processes and control mechanisms to make production faster, safer, more economical and easier to monitor.

WHY COTMAC?

Committed to the design, manufacturing and delivery of innovative solutions, Cotmac provides the highest quality of system integration to clients anywhere in the world. The company handles medium to large scale turnkey projects, modules within larger projects, and engineering services for overseas clients. Stringent international quality procedures are adhered to in all areas of work.

AUTOMATION SOLUTIONS TO INDUSTRIES ACROSS THE GLOBE

As a leader in system integration, Cotmac Electronics offers a range of high quality products and services. The company's knowledge and experience in factory and process automation help customers improve productivity and scale up operations.

The company's verticals are-

- Factory automation
- Process automation
- Engineering and software services
- Control panels
- Electrical and instrumentation
- Machine retrofit and repair
- Vision systems and tracking solutions
- Industrial products distribution

POWER YOUR BUSINESS WITH COTMAC SOLUTIONS

Factory automation

Cotmac provides comprehensive solutions to its customers for factory automation, enabling customers to seamlessly integrate the shopfloor with IT systems.

Cotmac provides solutions for:

- Automotive
- Cranes and material handling
- Paper and printing
- Textile automation
- Winder and unwinder machine

Cotmac is the No. 1 Channel Partner of Siemens Limited.

Process automation

Over the years, Cotmac has built in-depth domain knowledge of business processes, and with its dedicated team of engineers, offer customers end-to-end process automation solutions.

Cotmac offers innovative process automation solutions for the following industries:

- Food and beverage
- Chemical
- Pharmaceuticals
- Water treatment
- Cement
- Power and utility
- Metals and mining
- Boiler automation
- Brewery and distillery

The company is a licenced Siemens Solutions Partner for Simatic PCS7.

Engineering and software services

Cotmac provides solutions in the fields of control automation, instrumentation and engineering.

Its range of services includes:

- Detailed design engineering
- Control software/ SCADA development
- Process optimization services
- Field and training services
- Eplan, AutoCAD and Microstation services

Control panels

Cotmac provides custom designed control panels for indoor and outdoor applications. The company's products include MCC panels, PCC panels, PLC panels, AC/DC drive panels, instrumentation panels, mimic panels, AMF panels and marshalling cabinets.

Cotmac has five state-of-the-art units to manufacture control panels for a wide range of industrial applications.

The panels have certifications and approvals from CPRI, ERDA, CE and UL. We are a licensed partner for Siepan 8PU from Siemens

Turnkey projects

Cotmac executes projects for electrical, instrumentation and control on a turnkey basis. The company manages the overall project in terms of design, detailed engineering, manufacturing, testing, transportation, erection and commissioning, including training and technical assistance where necessary.

From tracking progress and development, to operation start-up and final acceptance, Cotmac has handled many complex turnkey projects in India and abroad. The trust and cooperation of its repeat customers are testament to the thoroughness of the company's project execution capabilities.

Machine retrofit and repair

Cotmac's machine tool division has the knowledge and proven expertise to retrofit and upgrade older systems with newer generation PLC and CNC controllers, thus improving productivity and accuracy of machines.

Cotmac's dedicated service division caters to breakdowns in industrial automation products and provides repair services for CNC system and spares, AC/DC, servo, spindle drives, servo, spindle motors, PLC system and spares, HMI and industrial PC.

Vision systems and tracking solutions

Cotmac offers customized vision-based inspection, guidance and identification systems that give machines the power to "see." Vision systems provide early detection of process errors, ensure shipments are free from all defects, and reduce rejections.

The systems are rugged, easy to use, reliable and efficient. By integrating our vision systems with intelligent material handling, Cotmac helps customers optimize processes to enhance productivity and maintain quality.

Cotmac is an Automation Solutions Provider (ASP) for Cognex.

Industrial products distribution

Cotmac is an authorised dealer for Siemens switchgear and motors, Lapp cables, Omron and Phoenix electrical components and Eplan engineering software.
