Health, Safety And Environmental policy

KS India management is committed towards health and safety of its employees and contractors working for us.

HSE policy aims to remove or reduce the risks to the health, safety of all employees and contractors, and anyone else who may be affected by our business operation.

HSE policy aims to ensure all work activities are done safely.

Management (the supervisor and / or manager) is responsible for providing and maintaining:

- a safe working environment
- safe systems of work
- any information, instruction, training and supervision needed to make sure that all workers are safe from injury and risks to their health
- Specific HSE requirements at customer's site.

Employees are responsible for:

- ensuring their own personal health and safety, and that of others in the workplace
- complying with any reasonable directions (such as safe work procedures, wearing personal protective equipment) given by management for health and safety
- participate in HSE improvement actions
- reporting of hazards and incidents

We are committed to establish and implement HSE management system which includes proactive risk management, training, communication and participation, defining clear roles, responsibilities and accountabilities with regard to HSE system.

We will comply with applicable legal and other requirements and evaluate its compliance regularly.

We will establish monitoring system to check the compliance with HSE requirements and output of such monitoring will be reviewed in management meetings.

We will ensure periodic review of HSE system and take improvement actions continually

Penalty in case of violation of safety rules

All the K S India employees will need to strictly adhere to the following disciplinary guidelines.

1. All the employees MUST follow the safe working practices at customer sites.
2. If any employee has any difficulty/objection in following any safety rules, he/she should discuss this with his/her supervisor/manager and clear the issue.
3. Any employee, if found violating the company safety policy or if found NOT following the safe working practices will be penalised as follows.

Caution Warning – This will be issued to the employee(s) found violating safety rules/policy. If caught for first time, he/she will be issued FIRST CAUTION WARNING. If caught for second time, he/she will be issued LAST CAUTION WARNING. After that he/she will be suspended for couple of days.

Temporary suspension from service – Employee will be suspended for couple of days if caught violating the safety policy/rules even after issuing the LAST CAUTION WARNING.

Higher management will decide the number of suspension days based on the severity of the violation.

Termination from service – If an employee is caught violating rules even after temporary suspension, he/she will be permanently terminated from the job. No justification will be accepted at this level of safety policy/rule violation.

PERSONAL PROTECTIVE EQUIPMENTS POLICY

Personal Protective Equipment (PPE) is defined as all equipment which is intended to be worn or held by a person who is at work and which protects him or her against one or more risks to his or her health and safety'.

This policy does not apply to ordinary working clothes and uniforms which do not specifically protect the health and safety of the wearer.

This policy does not apply to work with Lead or Asbestos.

Personal Protective Equipment therefore (for the purposes of this policy) includes items such as the following when they are worn for purposes of health and safety:

- Gloves
- Safety shoes
- Hard hats
- Face masks
- Eye protection
- Ear Plugs
- Protective clothing for adverse weather conditions.

II. RESPONSIBILITIES OF MANAGERS

Managers have the following responsibilities:

To ensure suitable and appropriate PPE is provided. This means that the PPE should be appropriate for the risk or risks involved and the conditions where it will be used. The PPE should take account of ergonomic requirements and the state of health of the person who is required to wear it.

To carry out the assessment on the suitability of the PPE on all items of PPE prior to starting work, A record should be kept.

To provide information, training and instruction for employees therefore enabling them to make proper effective use of PPE.

RESPONSIBILITIES OF EMPLOYEES

It is the responsibility of an employee to use PPE in accordance with training and to report any loss or defect immediately. The employee also has a responsibility to return PPE to its place of storage.
