

RAGAVENDRA ENGINEERING WORKS

QUALITY DELIVERED.

OUR START

- In 2000, Ragavendra engineering works has been started for fabrication and erection works in contract with TI cycles.
- It continued from there on , to TI tubes, TI miller, RANA , TI diamond chain for fabrication works , continued to several years.
- We have also done fabrication and erection works at IIT Chennai.
- At 2004, We entered TVS group, (sundaram fasteners), here we started supplying Man power and fabrication.
- Eventually we enlarged our business to the Neighbouring company TVS (sundaram clayton) where we took Fitting, Man Power, Fabrication, Erection and material supply.

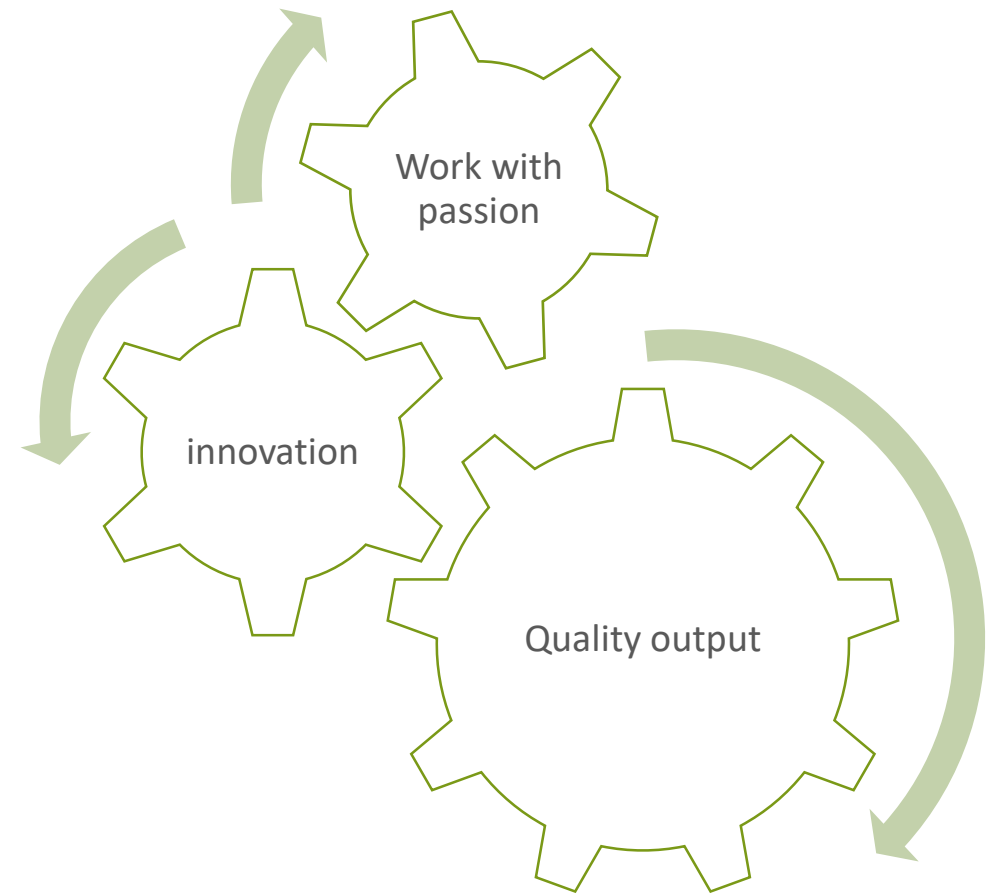

OUR PATH

- We started with fabrication and erection work.
- Now we are handling almost all types of job like manpower, fettling, material supply.

PRESENT

- Our experience in the industry is over 20 years, we have worked in contract with many esteemed companies .
- Now at present , we are doing our services at Endurance Technologies pvt ltd.,
- We always strive and aim to give out the best quality of time at work.

RAGAVENDRA ENGINEERING WORKS

Our main aim is to get best quality
time at work to get the best
output.
