

Compliance for Tools and Equipment Use in Good Working Conditions

We, Bombay Engineering & Moulding Works Pvt Ltd, undertake to ensure that all tools and equipment used in our iron foundry operations are maintained in good working conditions. We commit to:

1. Regularly inspect and maintain tools and equipment to prevent wear and tear.
2. Perform routine cleaning and lubrication to ensure optimal performance.
3. Store tools and equipment properly when not in use to prevent damage.
4. Train employees on proper tool handling and usage techniques.
5. Provide personal protective equipment (PPE) and ensure its use when operating tools and equipment.
6. Implement lockout/tagout procedures for equipment maintenance and repair.
7. Keep accurate records of tool and equipment maintenance, inspection, and repair.
8. Ensure compliance with manufacturer instructions and industry standards.
9. Provide a safe working environment, free from hazards and obstructions.
10. Continuously monitor and improve our tool and equipment maintenance program.

- Management: Ensure resources and support for tool and equipment maintenance.
- Supervisors: Oversee employee training and tool usage.
- Employees: Use tools and equipment correctly and report any issues.

Consequences of Non-Compliance:

- Disciplinary action
- Equipment damage or failure
- Injury or accident
- Production delays
- Financial losses

Review and Revision:

- Review this undertaking regularly
- Update and revise as necessary
- Document revision history

By signing below, we acknowledge our commitment to maintaining tools and equipment in good working conditions.
