

INNOVATION ENGINEERING WORK

All Type Industrial Hardware & Steel material Supplier, SS MS, Pipeline FRP ,Coating work,
MS & SS Fabrication work , all type of machining work .

Office Address :- Plot No -24 Gut No – 32 Behind K-82 , MIDC Waluj .Mo.9503086974

HEALTH & SAFETY POLICY

Date :01-07-2024

- Comply with applicable legal and other requirements that relates to plant, process safety, occupational health, and environmental safety
- To identify risk & opportunity, need & expectation and ensure proper internal & external communication with workers and interested parties.

Continuously analyse and improve our practices and processes to reduce & eliminate the hazards, risk and adverse impact on plant and health of our employees & interested parties.

- Encourage all the employees, workers and interested parties for their active participation & consultation in hazards identification, risk assessment, environment impact, incident investigation, audits and implement the remedial actions for the identified hazards and risks.
- Develop a culture of safety through active leadership by providing appropriate information and periodic training on plant and process safety, work safety, occupational health, and environmental safety to all concerned to enable them to fulfill their health and safety obligations.
- Provide an ergonomically safe work environment by reducing occupational injuries, hazards and illness to our employees and interested parties.
- Investigate and analyze the cause of work-related injuries and illness as well as environmental related incidents or damages and take preventive action to eliminate the root cause of occurrence.

• Establish and implement HSE management system related to all projects, plant, process safety, work safety, occupational health & environmental protection
