2020-21	500	13500000	0	0		0	13		12	0	0	0.96
2021-22	700	1449000	0	2		0	7		2	99	1.38	6.21
2022-23	700	1890000	0	2		0	15		1	19	1.05	8.99

Over 7 days (RIDDOR) injury: Any occupational accident or injury that lead to an employee being away from work, or unable to perform his normal work duties for more than seven consecutive days as a result of injury (not counting the day of the accident but including weekends and rest days)

LTI: Any injury/illness arising out of, or in connection with work which is reported to concerned supervisor and which results in employee absence from work for more than 3 days continuously following the day/shift during which the incident occurred in addition to the day of injury.

Note: LTI includes over 7 days (RIDDOR) injuries also.

RWC: Restricted Work Case

MTC: Medical Treatment Case

TRC: Total Recordable Cases (Fatality + Over 7 days (RIDDOR) injury + LTI + RWC + MTC)

FAC: First Aid Case

LTIFR: Lost Time Injury Frequency Rate = Number of LTIs x 1,000,000 / Man-hours worked

TRCR: Total Recordable Case Rate = Number of TRCs x 1,000,000 / Man-hours worked
