

HEALTH & SAFETY

Health, Safety & Environmental management is of paramount importance and the acceptance of Responsibilities is taken very seriously.

All level of staff and operatives are trained to high standards in respect of protection and environment held at head office.

All technical staff and operatives have been trained in Health & safety and carry CSCS card. Competence of all employees and engaged labour is checked prior to commencement and record of achievements held at Head office.

Prior to the commencement on site a 'Starter Pack' of Health, Safety and Environmental Contract is produced which is specific to the site. Included in the pack are Risk Assessments, Method Statements, Risk control, specific site requirements and all other relevant information.

It is our policy that all site are checked at minimum one month interval by our Health, Safety & Environmental Control Officer. A report of each visit is also made available to the main contractor and site operatives.

Mr. Vijay Dalvi
