## Contractor Safety Management Manual

Doc.  
No:AG/TSL/CSM/HSM/01  
Rev: 00  
Effective Date: 01-12-  
2022

### Goals:

- Prevent injury and illness to staff and employee as well as reducing the risk assessment of an unwanted incident that could result in loss of assets to the industry(Plant) by a process of continuous improvement

### Objectives:

- Review list of safety program- select and document program to be audited (prioritize)
- select documents for departments and management to be included  
Determine auditor (departmental self-audit)
  - Determine Audit frequency and schedule on master list
    - Develop program for topic specific audits
      - Plan, schedule and conduct audits
  - a) Determine if Audit is planned and announced to stakeholders or unannounced.
  - b) If announced, invite key stakeholders to participate
- Communicate Audit results to stakeholders, department chair, division director and include corrective action noted and timetable for department to respond in writing with corrective action taken or planned

Follow-up to review if corrective actions are implemented by contractor
