About Us:

Established in 2012 company specializes in design, manufacture and integration and service of automation equipment.

We have developed various automation panels to handle Power distribution, Isolation, Safety, Controllers and Drive wiring, Installation and commissioning. Some of the projects executed are like Conveyors; Special purpose machines (SPMs) and Industrial Robots Integration and Industrial Internet Of Things (IIOT) and OEE software implementation as per customer requirements.

Om Automation was initially started as service-oriented company which was handling service support of Electrical maintenance. With increase in demand for Cost-effective and quality Wiring and Programming requirements in the industry, Om Automation started making Electrical panel building. Later it started designing control circuits and offering Programming and execution services as per industrial standards and delivering on-time to customers.

With the experience in providing automation solutions and association with industrial giants, Om Automation has gained advantage of understanding customer needs and receiving honour to

CONVEYOR LINE

- Straight Conveyor
- Loop Conveyor
- Vertical Sorter Line
- Robotic Line

FOUNDRY BASE (SPM)

- Quenching Tank
- Leak Testing Machine
- RCM Machine
- Deburring Machine
- Drilling Machine
- Bandsaw Machine
- Powder Coating
- Degassing Machine
- Auto Pouring (Multi-axis and Robots)

INDUSTRIAL ROBOTS

- Robot Installation
- Robot Programming (Customizations, new programs)
- Robot Interfacing

Programming capabilities :

Om Automation has diversified experience in PLC/HMI programming. We have programmed all major programmable logic controllers, Drives and HMI.

PLC HMI

- Mitsubishi
- Siemens
- Delta
- Schneider-Electric
- Omron
- Allen Bradley
- Nexgene.
- Goc

AC DRIVES

- Mitsubishi
- Delta
- ABB
- Siemens
- Schneider-Electric

SERVO/STEPPER DRIVE

- Mitsubishi
- Delta
- Oriental Motor
- Fuji
- Schneider-Electric
- FESTO
